

Supply List for QSDS Color Workshop

Paints:

JoSonja Color (acrylic gouache)

1 naphthol crimson
1 phthalo blue
1 ultramarine blue deep
1 cadmium scarlet
1 yellow deep
1 yellow light
1 raw umber
2 titanium white

also:

Bienfang Marker Pad- 9x12 50 sheet
DB studio synthetic water color 1 inch wash brush with acy handle
Uhu blue glue stick
Blick disposable palette- 9x12 50 sheet
Richeson plastic palette knife

These items are all for sale on the Dick Blick website. Substitutions with other brands etc. are possible for everything BUT THE PAINT. This paint is only sold by Blick as far as I know and it is uniquely suited for our purpose because it dries flat like gouache, is not reworkable and is very inexpensive- around \$3 a tube. I have not been able to find any other paint of this quality at anywhere near this low price.

The Bienfang Graphic 360 marker pad is also essential- but it can be purchased almost anywhere. It's a very thin and strong 100% cotton paper that is perfect for color swatches and collage application.

In addition to the materials listed below, students should bring a water container, a utility or exacto knife, a 12" steel ruler, a self healing cutting mat, a pencil and a pair of scissors. Bring a small portfolio for storing work. Strongly recommended: an Itoya presentation book with archival plastic pages- item #15271 art portfolio 36 pages 11 x 8.5"
