

Dyeing & Surface Design Independent Study – Supply List

Bring fabrics, supplies and tools appropriate for the techniques you will be using.

We will have access to some QSDS supplies such as buckets, monoprint boards, print tables, etc. If you are unsure, or need guidance on what to bring, please contact me at Kevin@KevinWomackArt.com. I will be happy to consult with you.

If you are flying to Columbus and have limited space, I will be driving and will probably have room to provide some of your supplies.

As an option, we might compile a class order of dye/paint supplies and auxiliaries to prevent everyone from having to bring their own. I would order ahead of time and have them shipped to CCAD. There would be a shared supply cost for those students who wanted to use them. Again, please email me if you have questions or concerns. Estimated supply fee \$50 to \$100.

Please bring any surface-design-related books or magazine articles you would like to share with others for discussion and browsing. These could include your favorite websites and blogs, etc.
