

MAKE YOUR MARK: A Liberated Look At Line

CLASS SUPPLY LIST FOR STUDENTS:

Class Fee: \$10 for materials used in class exercises

Sewing and Fabric Supplies:

Sewing machine with which you are familiar. Workshop hours are precious; don't spend it learning how to make a bobbin or sew with the feed dogs down. Be sure to pack whatever presser foot you use for free machine quilting, the correct plug, foot pedal (don't laugh, it has happened!), and instruction booklet. Take your machine for a test run before coming to class to make sure you know how to lower the feed dogs and put on the free machine foot. This isn't a machine quilting class, so you don't need any skill in machine quilting, but you do need to know how your machine works.

Extra needles

Bobbins- wound with black thread. If you have Bottom Line thread or other high quality bobbin thread, use that

Straight pins

Scissors (both paper scissors and fabric scissors)

Rotary cutter (if you have a separate cutter you use for paper, pack that as well)

Gridded ruler (24" would be ideal)

Mat (no smaller than 18" x 24")

Thread – one spool of good quality black piecing weight thread.

Solid black cotton broadcloth

Precut for class:

2 pieces, one 9x12", one 11x17"

I'd throw in some extra, just in case you want do-overs (I always appreciate the chance to try again...)

Solid white cotton broadcloth (or other quilt weight cotton) You're looking for tightly woven fabric that won't turn grey when it's laid on top of black fabric. Test for opacity by laying a piece of the white fabric over a black paper or fabric

Precut for class:

6 pieces, each about the size of printer paper (8.5 x 11)

2 pieces, , one 9x12", one 11x17"

I'd throw in some extra, just in case you want do-overs (I always appreciate the chance to try again...)

Thin batting, suitable for machine quilting

3 pieces, each about the size of printer paper (8.5 x 11)

Other Stuff You'll Need:

Unlined white paper --computer printer paper is fine; about 15 sheets

#2 Pencil and sharpener

Thin black marker

Thick pointed black marker

Thick wide point black marker

Large, clean brown paper grocery sack (not plastic)

Glue stick

Optional:

Extension cord

Digital camera

Chocolate (I don't consider this optional, but you be the judge)
