2022

WELCOME!

Tracy Rieger, director of the Quilt & Surface Design Symposium, invites you to come experience the creative and sharing atmosphere that is QSDS. **2022 will be the 32nd Annual Symposium!**

We welcome all levels of students interested in design, textile arts and related media. Our goal is to bring people together to work intensely with the best teachers in the world. Classes in design and composition, art quilting, embroidery, surface design and mixed media challenge students to push the boundaries between what is considered craft and what is considered fine art.

There is more to QSDS than just classes! Evening activities include faculty presentations, a weekly mini-bazaar and, on Friday nights, an end-of-the-week celebratory reception and auction to benefit the QSDS Scholarship Fund. Vendors, located right in the main classroom building, offer fabrics, fibers, beads, tools and other tempting treasures. An optional mid-week bus trip provides an opportunity to visit area museums and galleries.

QSDS has a tradition of "open classrooms." You are free to take a break and visit the other classes, see what your fellow students are doing, and perhaps discover a teacher you'd like to study with in the future. The symposium draws students from all over the world. Enjoy connecting with other artists, exchanging ideas and making new friends while you expand your creative potential.

The Symposium's classes are held at the Columbus College of Art and Design. Located in downtown Columbus, CCAD is adjacent to the Columbus Museum of Art and Columbus State College. There is twenty-four-hour security and on-site campus parking. The state-of-the-art studio classrooms are just steps away from the dorm and cafeteria. All buildings are handicap-accessible.

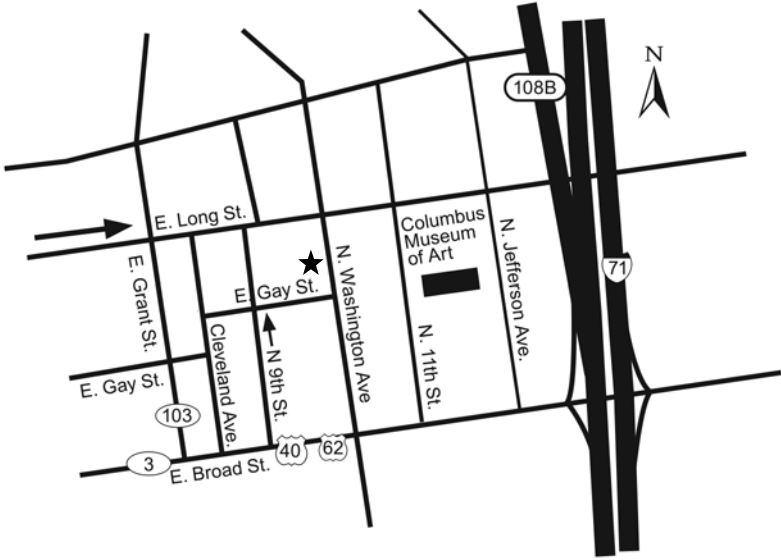

**Share in the excitement of exchanging ideas and enjoy
the camaraderie of artists from all over the world!**

Betty Busby

Supplies Fee
\$ 40

Non-woven materials can be a wonderful addition to traditional fabrics, extending a fiber artist's range of expression. We will explore the use of an electric cutting machine (Cameo) to cut non-wovens into finely tuned shapes. You will learn how to draw a pattern from scratch, work with the software and adjust the settings on the machine. I have developed new ways of painting fabrics. Students can make samples using my methods and materials, and combine them with the non-wovens as desired. The aim is to give each person many exciting ideas.

2 Which Way Is Up?

Level
Intermediate/Advanced

Sewing Machine
Yes

Rosalie Dace

Supplies Fee

Discover the importance of abstracting, editing and simplifying ideas in order to make a good visual composition. Learn how to bring your great ideas to life and translate them into fabric and thread with meaningful shapes and lines, creating rhythm and movement. As we look at a variety of images and discuss the elements of design, you will see why some designs, whether representational or abstract, work better than others. The results will surprise and delight you as you compose and construct with confidence in a variety of ways to create contemporary work.

3 Boro Reboot

Our world moves very fast. Let's slow down and relish in process rather than product. Supplies are minimal and no machine is required. We will create small compositions, emphasizing how to use the hand stitch as a major design element. Grab a bag of fabric scraps, your favorite hand sewing tools and jump on board. This is not a technique workshop where you learn how to hand stitch. We will focus on using the stitch line as mark-making on cloth. Stitches are the brush strokes that make the composition complete.

4 Independent Study

Sewing Machine
Optional

Michael James

Class Fee
\$ 50

Work independently on one or more projects, with periodic feedback from Michael James and other members of the session group. Marks are influential. Marks have meaning. Marks help us communicate. Begin by developing your unique "mark vocabulary" using ink, markers, paints, hand stitching and diverse mark-making strategies. Next, use your journal of marks to inspire motifs and ideas for repeated patterns. Delving further, discover effective ways of incorporating your newly-formed visual language into your work. Choose to construct a composition, explore hand stitching, or develop machine-stitched motifs for your final project. Join in the fun while creating designs that are uniquely yours.

Take your mind on a walk as you piece, applique or stitch your own private journey. Relax as you discover the possibilities of needle, thread and simple stitch. Your steps become a symbolic pattern, tracing your path through your room, home, yard, or neighborhood. Stitch by hand and/or machine on a plain or pieced background. Stitch length, direction and color will echo your stride as you meander through your day. The resulting quilt top, full of line, color and thread, will sing with the personal symbolism, adding a further dimension to your work. Putting emphasis on variety, direction and weight of LINE, then combining it with shape to enhance your design and composition.

Move from idea to finished work, negotiating the passion and pitfalls along the way, creating a small original quilt based on one of your ideas. We'll work through the questions we all ask: Where do I start? How do I sort through my ideas? How do I know what to do? What do I leave out? What techniques do I use? What if I simply loathe what I have done? How do I deal with rejection...and whose opinion do I value anyway? How do I choose and enter shows? You will be part of both group and individual problem solving. Presentations show how other artists have worked with different solutions for making original work.
